Subject: Safety signs and others

Dear Coordinators,

Greetings. In the next few weeks, EH&S students will be delivering to all labs, the following items:

1. **Posters:** Lab safety posters will be affixed on a prominent space in the labs for all personnel to refer to.
2. **Signs:** 'Caution eye protections" signs will be affixed on doors of labs or shops where hazardous chemicals or hazardous operations take place. These signs are purchased by the provost office to be distributed to the labs. Any issues or comments, please refer to the provost letter to all departments. *Please do not take down the signs or give the students a tough time, they are only doing their job!*
3. **Eyewash bottles:** These are also provided by the provost office while waiting permanent installations of eyewash stations by Physical Plants.
4. **Other signs or labels:** let the students know if you need waste calendars, waste stickers, waste weekly checklist, etc. they should have some with them.

On another subject, I will be contacting each one of you to set up meetings between EH&S inspectors, you and anyone designed as a safety person for each Principle Investigator. We will be discussing the following issues: results of the first round of laboratory surveys, any issues for the laboratories and the impending next round of EPA (or DEP) inspections.

Thank you so much for your help on these important issues. Hope you are enjoying the beautiful autumn weather.
